Andrei Marchenkov

Java Expert | 10+ Years Experience | Passionate about Clean Code & Scalable Systems

Belgrade, Serbia

Summary

Results-oriented Software Engineer with 10+ years of success in delivering high-quality software solutions. Expert in System design, data structures and algorithms, proficient in Java, Spring, SQL and NoSQL. Delivered more than 10 successful projects within budget and on schedule. A strong team player with excellent communication, problem-solving, and analytical skills.

Experience

Threatrix

Senior Java Engineer

March 2023 - Present (2 years)

Remote

Applied extensive Java expertise to design and deploy critical security solutions for software supply chains, ensuring on-time and within-budget delivery of key features. Participated in all phases of the software development life cycle, driving efficiency and security.

- Implemented features to enhance vulnerability and license detection in customer's software products.
- Enhanced Java application performance through code optimization and refactoring and increasing overall efficiency.
- Collaborated on the redesign of the ScyllaDB schema, contributing to efforts to enhance database responsiveness.

EPAM Systems

Senior Software Engineer

March 2021 - February 2023 (2 years)

St Petersburg, St Petersburg City, Russia

Engineered and optimized scalable e-commerce applications using Java and Spring Boot, ensuring secure and efficient online transaction processing through seamless integration with various payment aggregators. Collaborated

effectively with cross-functional teams to deliver high-performance solutions that supported key business objectives

- Implemented reactive Java APIs for payment gateway integration, reducing latency and ensuring robust processing.
- Led the migration of legacy Java systems to a Microservices Architecture, improved application resilience and maintenance.
- Actively participated in code reviews, contributing to improved code quality and knowledge sharing within the team.

Grid Dynamics

Java Engineer

September 2019 - February 2021 (1 year 6 months)

St Petersburg, St Petersburg City, Russia

Developed and maintained enterprise-grade applications for E-Commerce customers using Java, Spring Framework, and Cloud Services. Managed the entire development life-cycle from requirements gathering to development and testing.

- Created and developed a Sourcing service to solve sourcing problem, which significantly reduced delivery costs.
- Participated in the development of a IVR bot for a call center using DialogFlow.
- Optimized architecture to reduce cost of cloud resources in GCP.

First Line Software, Inc

Java Developer

April 2016 - August 2019 (3 years 5 months)

St Petersburg, St Petersburg City, Russia

Took part in development and testing services for customers. Involved in the full life-cycle of an application - from gathering requirements to production operation.

- Implemented migration data pipeline to migrate data from legacy system to new version with min downtime.
- Successfully launched a government application that increased the speed of processing advertising control.
- Implemented Event-Sourcing data migration, which increased the amount of data available for reporting.

Zed

Software Engineer

August 2014 - April 2016 (1 year 9 months)

St Petersburg, St Petersburg City, Russia

Built Java solutions for GSM billing, fraud prevention, and service/traffic analysis.

- Implemented features for GSM providers and modernized legacy services to reduce tech debt and increase maintainability.
- Participated in Big Data analysis, supporting the development of more effective fraud detection strategies.
- Applied MapReduce techniques in MongoDB to process and analyze large datasets, enhancing data processing capabilities.

EDISOFT Ltd.

Software Developer

September 2013 - August 2014 (1 year)

St Petersburg, St Petersburg City, Russia

Support and development of internal CRM system. Implementation of integration with partner's systems.

Education

Saint Petersburg State Electrotechnical University "LETI"

Bachelor's degree, Information Technology · (September 2014 - June 2019)
